SUMMARY

Having **10.4 years** of experience in IT industry, with **6.4 years** in Frontend development and **3+ years** of hands-on experience in React.js. Delivered scalable web applications achieving 30% faster load times and improved user engagement by 25% through optimized React architecture and performance tuning. Skilled in Redux Toolkit, React Hooks, REST API integration, and cross-browser compatibility. Seeking to leverage expertise to build high-performance, user-centric frontend solutions.

PROFESSIONAL EXPERIENCE

Sr. UI Developer | VRS IT Smart Solution PVT LTD | Hyderabad, TG

Jan 2024 – Jan 2026

- Built and optimized reusable React.js components using hooks and Context API, improving load times by 30% and reducing maintenance overhead by 20%.
- Integrated REST APIs efficiently with Axios and Fetch, handling async states to reduce data errors by 15%.
- Collaborated with UI/UX teams to convert Figma designs into pixel-perfect, accessible interfaces, boosting user satisfaction scores by 25%.
- Enhanced application performance by implementing lazy loading and code splitting, increasing Core Web Vitals scores by 40%.
- Integrated frontend components with RESTful APIs, collaborating closely with backend teams to define and validate API contracts.
- Ensured UI consistency, accessibility (WCAG), and responsive mobile-first design using reusable design system components.
- Developed and maintained unit tests using modern testing libraries and actively participated in peer code reviews to uphold code quality.
- Automated test execution within CI pipelines using GitHub Actions, improving build reliability and deployment confidence.
- Followed OOP principles, testing best practices, and TDD/BDD methodologies to ensure high-quality, testable code.

Software Engineer | PrimeSoft Solutions, Inc | Hyderabad, TG

Dec 2022 – Sep 2023

- Developed interactive React.js frontend features, improving user workflows and increasing feature adoption by 22%.
- Transformed business requirements into dynamic UI components with form validation, reducing user errors by 18%.
- Collaborated with backend teams to integrate REST APIs, enhancing data flow efficiency by 20%.
- Conducted code reviews and performance tuning, accelerating app responsiveness by 15%.
- Built and maintained scalable web frontends using Next.js with emphasis on SSR/ISR and optimized routing.
- Implemented robust state management, client/server routing, async data fetching, and centralized error handling to improve application reliability.
- Applied strong component architecture and state management patterns to build maintainable and scalable React applications.
- Worked within containerized environments and supported CI/CD workflows.
- Optimized frontend performance through bundle size reduction, caching strategies, and Next.js SSR/ISR enhancements, improving Core Web Vitals.

WordPress Web Developer | Saras Analytics | Hyderabad, TG**Dec 2021 – Nov 2022**

- Delivered 100+ responsive pages using HTML5, CSS3, and Bootstrap, improving mobile traffic by 30%.
- Customized WordPress themes to enhance UX, raising client retention by 20%.
- Optimized page load times by 25% through advanced image compression and clean coding.
- Collaborated closely with designers for pixel-perfect implementations, achieving consistent UI standards.

WordPress Developer | Hofincons International PVT LTD | Hyderabad, TG**Sep 2019 – Dec 2021**

- Built and customized WordPress websites achieving a 15% increase in traffic through SEO and performance audits.
- Integrated APIs and third-party tools to enhance functionality and user experience.
- Hands-on in developing static webpages using Frontend technologies and Bootstrap Framework.
- Executed performance audits decreasing load times by 20% using Lighthouse and developer tools.
- Supported SEO initiatives contributing to a 10% growth in organic rankings.

Digital Marketer | Just Business Developer | Chennai, TN**Sep 2018 – Sep 2019**

- Running PPC campaigns for different geographic locations, acquiring new clients with data from PPC campaigns.
- Tracking Ad campaign results on a daily basis to overcome the cost to get good ROI.
- Able to code in a WordPress environment and develop and/or update code for themes and plugins.
- Monitoring SEO analysis for client websites and monitoring website traffic using Google Analytics.
- Developing and Implementing SEO strategies including creating SEO optimized content researching keywords and SEO strategies.
- Hands-on in Google Analytics, Google Search Console & Google Optimizer to improve website performance.

Manual Tester | Absolin Software Solutions | Vizag, AP**Jun 2017 – Aug 2018**

- Understanding the requirements and gathering the project information.
- Performing Manual Testing on the functionality of the application and Creating Test Scenarios, Test Cases, and Test data for the application.
- Preparing detailed test plans, acceptance criteria and test scenarios for a project.
- Presented Project Demo's and Test Documents to clients.
- Designing Test Cases, Execution of the test cases and reporting the bugs.
- Executing Tests and analyzing results as per client requirements.

Business Development Executive | Miracle Software Systems, INC | Vizag, AP Sep 2015 – Mar 2017

- Identify ways to build brand awareness through engaging campaigns that establish the company reputation, incite curiosity, and inform potential customers.
- Reach to clients through call/emails to explain company expertise and services.
- Provide prospective clients with all services offered and additional presentations as needed.
- Collaborate with support teams to ensure accurate and up-to-date knowledge articles.

PROJECTS

CyberCrest

- Developed React frontend modules improving user engagement by 30%.
- Implemented efficient state management using Redux Toolkit, reducing bugs by 25%.
- Optimized API consumption with Axios, accelerating data retrieval by 20%.
- Collaborated with cross-functional teams to deliver the project 2 weeks ahead of schedule.

Saras Analytics

- Built custom reusable components with React Hooks, enhancing development speed by 35%.
- Integrated RESTful APIs to support dynamic content rendering, improving load times by 18%.
- Executed UI interaction testing using Jest and Vitest, boosting application stability.
- Partnered with designers to maintain brand consistency and accessibility standards.

WhatsAppAPI UAE

- Implemented responsive UI using Next.js and TailwindCSS, increasing mobile user engagement by 28%.
- Streamlined codebase through modular component design, reducing technical debt by 22%.
- Enhanced performance using code splitting and lazy loading, improving page speed scores by 33%.
- Coordinated with remote teams to ensure timely delivery and effective communication.

VRSTech

- Led frontend development for scalable React app, improving user retention by 25%.
- Utilized React DevTools Profiler to identify bottlenecks and optimize rendering performance.
- Integrated REST APIs seamlessly, reducing API error rates by 15%.
- Mentored junior developers, fostering a collaborative and efficient team environment.

TECHNICAL SKILLS

Programming And Querying:	JavaScript (ES6+), TypeScript, React.js, React Hooks, Redux Toolkit, Next.js, HTML5, CSS3, Bootstrap
Data Handling:	REST APIs, Axios, Fetch API
AI Tools & Assistants:	ChatGPT, Github Copilot, Cursor, Claude
Development & Tools:	Node.js, Git, GitHub, Figma, Jest, Vitest
Soft Skills:	Performance Optimization, Cross-browser Compatibility, Responsive Design, Team Collaboration, Agile Methodologies

EDUCATION

Bachelor of Technology – Computer Science & Engineering	2010 – 2014
Avanthi Research and Technological Academy, GPA: Aggregate: 62%	

CERTIFICATIONS

- Certified Web Development with Vibe Coding from Frontlines Edu Tech (FLM), Hyderabad TG
- Certified React.JS from Digital Edify, Hyderabad TG
